

# Grace House

15<sup>th</sup> May 2020

Our dedicated team have been ensuring children and young people are keeping busy during their stays at Grace House.

Grace House continues to provide a reduced service to a small cohort of children who have been assessed as having the greatest need.

The delivery of the service has been reviewed to ensure that we are compliant with government advice to keep children, young people and staff safe during this pandemic.

The young people have adapted well to the strange circumstances affecting us all at the moment and the team are constantly coming up with fun and stimulating activities to promote the mental and physical wellbeing of the children and young people.
