

# Savings for Carers

22<sup>nd</sup> June 2020

discountsforcarers

**Discounts for Carers** is one of the UK's leading providers of Carer discounts. We provide staff discounts, offers and deals to all carer employees, unpaid and ...

## Have you heard of the Blue Light Card?

The [Blue Light Card](#) is a nationwide discount card scheme that is available to those working in the NHS, emergency services, armed forces, social care and more. The card gives you access to a wide range of discounts from a UK-wide network of hundreds of retailers and venues, saving you money with online shopping and in-store purchases on the high street throughout the year. The card costs just £4.99, which is simply an administration fee, and it is valid for two

years after purchase. However, for our Care Workers, we are now reimbursing this fee, enabling you to have a Blue Light Card free of charge, with access to lots of fantastic discounts every day of the year.

## How to register for your Blue Light Card?

To apply for your own Blue Light Card, you need to create an online account and [register](#). It's a very quick and easy process – simply fill in an online form. It doesn't take long at all! Once you've purchased your card, ND Care & Support will reimburse you for the full cost when you bring it into the office, so that you're not out of pocket for long and you'll be eligible for savings once your card has been activated. This is applicable to Carers working across all three branches of ND Care & Support – Cardiff, Cross Hands and Abertillery.

## What can you use your card for?

Once you've registered with Blue Light Card and set up your account online, you will have access to a comprehensive list of available discounts from many different retailers on the high street and online. Discounts are available not only for shops but also for restaurants, entertainment, attractions, holidays and services such as car insurance. This means that you can save money every day on the things that you need, enjoy and want throughout the year. What's not to like?
